COMPANY PROFILE

TOUCHDISPLAYS

TouchDisplays experience has consistently stood for quality, reliability and innovation. We know Display- it's our only business. TouchDisplays founded in 2009 and haven't stopped obsessing over details to exceed the highest quality standards. From materials to products, fully QC test is necessary to ensure product quality.

We Focused on Touch POS systems/Touch All in one/Touch monitor customization, research, and development. TouchDisplays is not just a professional designer but an experienced manufacturer, which is specialized in high-tech electronics, touch sensors, HD display optimization, system application optimization, and scheme design.

TouchDisplay is large enough to have global business and scale, small enough to work hand-in-hand to help you accomplish your goal. TouchDisplay's clients are everywhere in different areas. You may have used our product or been helped by a TouchDisplays screen in the supermarket(eg, Groupe Auchan, Carrefour...), industrial equipment(eg, Panasonic...), restaurant, shop, hospital. etc.
