

## Bar code Scanner

High quality and Convenient fast for POS terminal

### Features

- Long lasting product cycle-enclosure
- Scanning speed 100 mm/sec
- Laser life can reach 10000 hours
- Support RS232 and USB interface
- Handheld bar code reader
- Ink wheel size 1mm
- Button life as much as 10 million times
- Dimension:100 \*80 \*175mm

### Specifications

Light source type	visible laser diode, a wavelength of 670 nm
Line scanning speed	100 / SEC
Decoding rate respectively	0.10 mm
Scanning depth of field	0-380 - mm
Read the elevation	30 degrees to 60 degrees
Decoding ability	EAN - 8, EAN 13, UPC - E, Code39, Code93, Code128, EAN128, Codaber, Industoal 2 of 5, 2 of5 Interleave, Matrix 2 of 5, MSI, China's postal code
Support interface	RS232,USB
Ber	1/100
Prompt	buzzer, indicator light
Scanning mode	manual
Working Voltage	DC 5 v
Working current	0.11 A
Static electricity	0.04 A
Electromagnetic compatibility	CE&FCC DOC
Working temperature	- 10° ~ 45°
Storage temperature	- 20° ~60°
Humidity	5% - 5% relative humidity (no condensation)
Environmental brightness	Max. 4000 lux (fluorescence)
Can bear earthquake-resistance capacity	1.5 m air falls
